SUMMARY

Frontend-focused developer skilled in building clean, responsive, and user-friendly web interfaces. Experienced in dashboards, booking flows, and interactive UIs using HTML, CSS, and JavaScript. Strong focus on UI clarity, smooth user flow, and real- world frontend implementation.

WORK EXPERIENCE

Software Developer Intern
S-Code Technologies Pvt. Ltd., Pune
June 2025 – September 2025
- **Worked on frontend development using HTML, CSS, and JavaScript**
- **Helped build responsive UI layouts and basic user interactions**
- **Assisted in styling components and improving page structure**
- **Learned basic backend concepts and API integration using Spring Boot**
- **Used Git for version control and team collaboration**

PROJECTS

Port Guard
- Designed a real-time security dashboard to centralize alerts and logs, improving visibility and reducing manual monitoring.
- Built a responsive layout focused on clear information hierarchy across devices.

Gaming Café Booking System
- Developed a step-by-step booking flow for PC/console reservations, improving clarity and reducing booking friction.
- Implemented slot selection, calendar availability, and a payment UI (frontend-ready).

AI Travel Guide — Created a frontend-only AI travel planning interface with a simple and structured user flow. **AI Sign Language Translator** — Designed an accessible frontend UI for converting sign language into text. **Virtual Try-On** — Developed an interactive UI with smooth animations and transitions.
